

**Programs Under Review**  
(October 7, 2020 to November 13, 2020)

Note: Information pertaining to each program is available in the language of the submitting institution only.

Program	Proposal Type	Program Description	Assessment Type	Decision (date, where applicable)
<b>NEW BRUNSWICK</b>				
<b>Mount Allison University</b>				
Bachelor of Arts in Computer Science + Economics	New	MTA is proposing a new BA in Computer Science and Economics. This joint major program aims to equip students with expertise in the foundational skills of both economics and computer science, and integrate their application in an interdisciplinary way. The program will be comprised of existing content in Computer Science, Math, and Economics, and be supported by existing faculty and academic resources.	To be determined	Pending response to comments

<b>University of Fredericton</b>				
Associate in Occupational Health and Safety	New	The University of Fredericton's programs are offered in an online delivery format. The Associate Degree in Occupational Health and Safety (AOHS) is a program of study, intended to enable students to attain Canadian and international standard competencies, and applicable skills associated with occupational health and safety (OHS) workplace practices.	NBDGA	Pending Minister decision
Master of Business Administration & Executive Master of Business Administration	Existing	The MBA and EMBA programs are being assessed as per the Minister's (April 2017 & June 2018) conditions to designation and in accordance with NBDGA policy.	NBDGA	Deferred to winter 2021
<b>University of New Brunswick</b>				
Master of Business Administration, Concentration in Entrepreneurship to Master of Business Administration, Concentration in Venture Commercialization, Scaling, and Investment (UNB, Fredericton)	Modification	UNB is proposing to change the name of its MBA with Concentration in Entrepreneurship to MBA with Concentration in Venture Commercialization, Scaling, and Investment. As part of this modification, UNB also proposes minor changes: the program structure will be modified slightly; Venture Assessment will be changed from a 3ch to a 6ch course, and Venture Development will be renamed Scaling Ventures.	Stage I	Approved (November 4, 2020)

<b>Nova Scotia College of Art and Design University</b>				
No proposals being considered at this time				
<b>Saint Mary's University</b>				
Executive Doctorate of Business Administration	New	SMU is proposing a 33-credit Executive Doctorate of Business Administration with an intake of 8-12 students every second year. The program is designed for senior executives with at least 15 years of experience in their respective fields (e.g. consultancy, IT, government, finance) who are employed full-time and have an MBA or equivalent. The EDBA is to be completed over three years (six semesters) and would consist of a mandatory, non-credit onboarding/orientation for students, followed by four modules with 11 courses, four of which are for completion/preparation of the final Applied Research Project. Students would be on campus for the first and last week of each semester and complete the program online in between residencies; online coursework includes both asynchronous self-paced material and synchronous virtual meetings.	Stage II	Pending consideration by the QA Committee at its next meeting
Diploma in Forensic Science	Termination	SMU is proposing to terminate the program following the results of an external review and due to limited resources.	Stage I	Approved (October 28, 2020)
<b>St. Francis Xavier University</b>

<b>PRINCE EDWARD ISLAND</b>				
<b>University of Prince Edward Island</b>				
Master of Science in Mathematical and Computational Sciences	New	UPEI is proposing a new two-year thesis-based MSc in Mathematical and Computational Sciences (MSC). To obtain the degree, students complete four courses (12ch), two compulsory courses (6ch) (MSC 8920: Advanced Mathematical and Computational Modelling [new], MSC 8900: Seminar in the Mathematical and Computational Sciences [new]) and two electives (6ch) drawn from new graduate-level courses and existing cross-level courses.	Stage II	Pending consideration by the QA Committee at its next meeting
Doctor of Applied Health	New	UPEI is proposing a Doctor of Applied Health (DrAH), a professional doctoral degree that promotes the application of health knowledge toward strategies, interventions, programs, and methodologies that can improve the quality of life for individuals and communities. The DrAH is a four-year, 60ch program composed of 20 new three-credit required courses, a minimum of 360 hours of on-campus summer institute experience, and an applied research project. Graduates may work in program planning, health promotion, health services delivery, health policy formation, health education and communication, and applied research initiatives.	To be determined	Stage I Assessment in progress
