

APPENDIX D

Program Proposals Considered for Approval

April 1, 2010 – March 31, 2011

Program	Date of receipt	Proposal Type	Program Description	Regional Designation (if approved)	Assessment Type	Decision
Acadia University						
Bachelor of Business Administration, Major in Accounting Bachelor of Business Administration, Major in Marketing	Apr. 7, 2010	Modification	The objective of the proposed four-year, 120h Bachelor of Business Administration with Majors in Accounting and Marketing program is to prepare students for professional careers in business or further graduate study. Those with an Accounting major will be prepared to undergo training for professional certification with the CMA, CGA and CA licensing bodies. Those with a Marketing major will be prepared for career entry positions in a variety of marketing functions or further graduate study. Students will have the opportunity to participate in a three term cooperative education program.	Not Regional	Cursory Review	Approved (May 31, 2010)
Bachelor of Business Administration with Major in Employment Relations	Jan. 17, 2011	New Program	The objective of the proposed 4-year, 120h BBA with Major in Employment Relations is to prepare students to manage employment relationships in a variety of organizational settings. Students complete 60h of business and non-business courses required for the degree and an additional 39h of Employment Relations related courses to receive the Major. The core courses of the major include theories of behavior, management, organization, human resource management best practices, and employment relations in both union and non-union workplace. Business and non-business elective courses allow students to explore the employment relationship from a variety of perspectives including the feminist, sociological, psychological, historical, and economic disciplines. Students will have the opportunity to participate in a three term cooperative education program.	Not Regional	Cursory Review	Approved (Mar. 3, 2011)
Bachelor of Business Administration with Major in Finance	Jan. 17, 2010	New Program	The objective of the proposed 4-year, 120h Bachelor of Business Administration with Major in Finance is to prepare students for professional careers in government, industry, business or further graduate study. Students will also be prepared to undergo training for professional certification with the CFA, CIMA or CFP professional accreditation bodies. Students complete 60h of business and non-business courses required for the BBA, and an additional 39h of Finance and Finance-related courses to receive the Major. Students will have the opportunity to participate in a three-term cooperative education program.	Not Regional	Cursory Review	Approved (Feb. 10, 2011)
Bachelor of Computer Science with Specialization in Game Development Includes termination of the BCS, Specialization in Business Information Processing	Aug. 19, 2010	Modification	The proposed program is a 36h specialization in Game Development in Acadia's existing Bachelor of Computer Science with Specialization program. Students will be required to complete the 54h BCSS core as well as a game development project. Students also have the option to participate in the co-op program.	Regional to NB (offered in PE and NS)	Cursory Review	Approved (Sept. 30, 2010)

Program	Date of receipt	Proposal Type	Program Description	Regional Designation (if approved)	Assessment Type	Decision
Acadia University (Continued)						
Bachelor of Computer Science with Specialization in Mobile and Ubiquitous Computing Includes termination of the BCS, Specialization in Computer Systems: Software	Aug. 19, 2010	Modification	The proposed program is a 36h specialization in Mobile and Ubiquitous Computing in Acadia's existing Bachelor of Computer Science with Specialization program. Students will be required to complete the 54h BCSS core and a special project in the area of mobile and ubiquitous computing. The main aim of this stream is to prepare students for the evolution of computing from stationary to mobile devices. Students also have the option to participate in the co-op program.	Regional to NB and PE (Offered in NS)	Cursory Review	Approved (Sept. 30, 2010)
Cape Breton University						
Bachelor of Arts (3-year degree), Concentration in Ethnomusicology	Apr. 2, 2010	New Program	To obtain the concentration, students must take a minimum of 30 credits in ethnomusicology (9 compulsory and 21 electives); at least 12 credits of Ethnomusicology courses must be completed at the 3000-level or above	Regional to NB and PE (offered in NS)	In-Depth	Approved with conditions (Sept. 20, 2010)
Bachelor of Arts (3-year degree), Concentration in Celtic Studies Renamed: Bachelor of Arts (3-year degree), Concentration in Celtic Culture	Jul. 3, 2010	New Program	At CBU, Celtic Studies will be the interdisciplinary study of the peoples and cultures commonly identified as Celtic. Students must take a minimum of 30 credits in Celtic Studies. To ensure that Celtic Studies students engage in a truly interdisciplinary program, they must take a minimum of 3 Celtic Studies credits (i.e., courses specifically listed or cross-listed as Celtic Studies courses) from each of three of the four following disciplines: History, Literature, Folklore or ethnomusicology and Religion.	Regional to PE (Offered in NB and NS)	In-Depth	Approved With conditions (Nov. 30, 2009)
Bachelor of Arts (3-year Concentration & 4-year Major and Honours) in Mathematics	Jul. 2, 2009	New Program	CBU is proposing to introduce a Bachelor of Arts in Mathematics program (Four year: Major, Double Major, Area Major and Minor; Three-year: Concentration) to allow students the opportunity to complete a Mathematics specialization outside the Bachelor of Science degree. Students will complete the specialization (e.g., Major, Concentration, etc.) through a combination of required and elective courses.	Not Regional	In-Depth	Approved with conditions (Feb. 22, 2010)
Bachelor of Science of Nursing	Nov. 26, 2009	New Program	The objective of the proposed program is to prepare professional nurses who can respond to the changing health needs of our society and maintain an ethical, evidence-based practice in a variety of settings with a variety of clients. It is a four-year full-time program with an Advance Major opportunity. Students are required to complete both classroom and clinical courses. The proposed program has previously been offered as a joint program with St. Francis Xavier University.	Not Regional	In-Depth	Approved with conditions (Apr. 26, 2010)
Certificate in Science Education	Apr. 22, 2010	New Program	This post-degree certificate is designed to provide teachers (kindergarten-grade 9) with a background in the sciences, specifically reflected in the NS public school program. The program requires two and a half years of part-time study on a year-round basis for a total of 30 credits. This is primarily a professional program, and has been approved by the Nova Scotia Department of Education for teacher certificate upgrading.	N/A	In-Depth	Withdrawn (Aug. 9, 2010)

Program	Date of receipt	Proposal Type	Program Description	Regional Designation (if approved)	Assessment Type	Decision
Dalhousie University						
Bachelor of Laws to Juris Doctor (includes all combined Bachelor of Laws programs)	Feb. 1, 2011	Modification	This proposal is submitted as a name change only.	Regional to PE Offered in NB and NS	Cursory Review	Approved (Mar. 3, 2011)
Combined Master of Business Administration/Master of Library and Information Studies	Mar. 23, 2011	Termination	In the past year the MLIS and MBA programs underwent modifications. The requirements for completion of each modified program will make it impossible to continue the MLIS/MBA program in its present form; therefore, Dal is proposing this termination.	Not Regional	Cursory Review	Pending
Master's of Periodontics	Apr. 14, 2010	New Program	The proposed program is a three-year, full-time master's program that requires 76ch, including a research practicum and hospital rotation. The purpose of the proposed program is to educate competent dental specialists able to practice the full-scope of clinical Periodontics and surgical implant dentistry using an evidence-based approach.	Regional to NS (offered in NB and PE)	Cursory Review	Approved (May 18, 2010)
Undergraduate Medical Education	Apr. 29, 2010	Modification	The program is being modified to achieve full compliance with accreditation standards. The modification is to reorganize the curriculum into units (in Yrs 1 and 2 only, Yrs 3 and 4 remain the same) and to re-write the objectives so they are in outcomes based terms. Content and duration and specifics of enrolment are not affected. The Introduction to Clerkship is also being shortened from 4 weeks to 2 weeks.	Regional to NB and PE (offered in NS)	Received for information and record	
Mount Saint Vincent University						
Bachelor of Applied Arts (Information Technology) (including practicum route and cooperative education route) Bachelor of Arts Co-operative Education Route with Integrated Major (History/Information Technology)	Jul. 22, 2010	Termination	The decision to terminate these degree programs was based on low and declining student enrolment and student demand, and identified issues with quality and resources.	Not Regional	Cursory Review	Approved (Oct 12, 2010)

Program	Date of receipt	Proposal Type	Program Description	Regional Designation (if approved)	Assessment Type	Decision
Mount Saint Vincent University (Continued)						
Bachelor of Applied Arts (Family Studies and Gerontology) Bachelor of Applied Arts (Honours) (Family Studies and Gerontology)	Jul. 22, 2010	Termination	This program was approved in 1999, and was developed collaboratively by faculty in Gerontology, who at that time offered a Certificate Program by the Family Studies faculty from the then-Department of Human Ecology. A new Department of Family Studies and Gerontology was instituted. The Department offers an undergraduate degree (Bachelor of Applied Arts [Family Studies and Gerontology]) and a graduate degree (Master of Arts [Family Studies and Gerontology]). The Masters degree will continue.	Not Regional	Cursory Review	Approved (Oct 12, 2010)
Bachelor of Arts (Combined Major) Bachelor of Science (Combined Major)	Mar. 16, 2010	Modification	MSVU proposed to modify the existing Bachelor of Arts with Major and Bachelor of Science with Major to allow for the possibility of a BA and BSc (Combined Major). The changes would also allow for students to acquire one major in a science discipline and another in an arts discipline. The combined major fields may be chosen from subject areas in which each major is already an approved major.	Regional status follows that of the first major (and remains as currently designated)	Cursory Review	Approved (May 4, 2010)
Bachelor of Arts with Major in Philosophy	Jul. 22, 2010	Termination	An external review of the programs offered by the Department of Philosophy and Religious Studies was carried out in 2007. It was the recommendation of the external reviewers that the current programs offered by the Department of Philosophy and Religious Studies be discontinued and replaced with one major program in religion and culture. In the case of the Philosophy program, while there are some very strong courses in philosophy, the Department does not have the ability to cover the discipline with sufficient scope to sustain a major.	Not Regional	Cursory Review	Approved (Oct 12, 2010)
Bachelor of Arts with Major in Philosophy and Religion	Jul. 22, 2011	Termination	An external review of the programs offered by the Department of Philosophy and Religious Studies was carried out in 2007. It was the recommendation of the external reviewers that the current programs offered by the Department of Philosophy and Religious Studies be discontinued and replaced with one major program (which has yet to be developed). In the case of the Philosophy and Religion program, while there is definitely student interest in some courses specific to the program, the Department does not have the ability to cover the discipline with sufficient scope to sustain a major.	Not Regional	Cursory Review	Approved (Oct 12, 2010)
Bachelor of Business Administration (Major in Finance)	Jul. 22, 2010	Termination	The Bachelor of Business Administration Program at MSVU recently underwent an external review. One of the recommendations of the review was to review and reconsider the range and scope of program offerings, and to focus on its key areas of expertise. Accordingly, the Department of Business and Tourism submitted a proposal to drop the Finance major and Finance concentration from the list of options within a BBA, given low student interest in the area of Finance, coupled with the recent retirement of the one faculty member with a PhD in that area.	Not Regional	Cursory Review	Approved (Oct 12, 2010)

Program	Date of receipt	Proposal Type	Program Description	Regional Designation (if approved)	Assessment Type	Decision
Mount Saint Vincent University (Continued)						
Certificate in Gerontology	Jul. 22, 2010	Termination	The certificate was originally offered through an agreement with the Department of Veterans Affairs to provide specialized training in Gerontology to those health professionals and care staff working in long term care facilities or in the community. This demand has declined as health professions have included geriatric care within their own training, and as other institutions including the Nova Scotia Community College have introduced credentials for front-line care staff. Enrolments have declined and were suspended in the Spring of 2007.	Not Regional	Cursory Review	Approved (Oct 12, 2010)
Certificate in Information Technology Diploma in Information Technology Diploma in Information Technology and Computer Science	Jul. 22, 2010	Termination	The Certificate in Information Technology required 6 units of coursework and the Diploma in Information Technology 12 units of coursework. All course work for these credentials was offered as requirements towards that Bachelor of Applied Arts (Information Technology) for which a proposal to terminate was also submitted to the MPHEC. Current enrolments are not sufficient to sustain a quality program. Current enrolment levels probably do not justify enhancing the resource base of the program. However, without an increase in resources, program quality will continue to suffer.	Not Regional	Cursory Review	Approved (Oct 12, 2010)
Nova Scotia Agricultural College						
Certificate in Technology Education	Sept. 8, 2010	New Program	The proposed program is a 2.5-5 year, part-time 30ch Certificate in Technology Education for public school teachers who teach technology education. Two courses are taken via distance education at Acadia University. It is a bachelor's level certificate recognizing upgrades in content knowledge and pedagogy related to technology education at the high school level. Upon completion, a Certificate of Upgrade for Nova Scotia teachers is the credential awarded.	Not Regional	In-Depth	Approved With conditions (Feb. 7, 2011)
Nova Scotia College of Art and Design						
Bachelor of Arts (Major in Art History)	Mar. 17, 2011	Modification	NSCAD is proposing to add an alternate entry stream to its existing Bachelor of Arts (Major in Art History) (approved in July 2005), to allow students who have previously completed 30 credits of social sciences and/or humanities courses to complete a Major in Art History without completing Studio credits.	Regional to PE (Offered in NB and NS)	To be determined	Pending
Post Baccalaureate Certificate in Design	Mar. 12, 2010	New Program	The objective of the one-year, 30-credit proposed program is to prepare students to enroll in the Master of Design program at NSCAD. The proposed program is composed of both Studio (21 credits) and Liberal Arts (9 credits) courses and provides a "design language" ESL component for those who need it. The majority of students entering this program will be international students.	Regional to NB and PE (Offered in NS)	In-Depth	Approved with conditions (Nov 29, 2010)

Program	Date of receipt	Proposal Type	Program Description	Regional Designation (if approved)	Assessment Type	Decision
Saint Mary's University						
Bachelor of Arts, Major in Entrepreneurship	Apr. 13, 2010	New Program	The proposed program is a four-year, 120ch bachelor's degree in arts with a 45ch major in entrepreneurship and an option to participate in a co-operative education program. The objective is to provide students with a broad base of knowledge in a wide range of humanities and social sciences disciplines, combined with a functional basis of business knowledge with an emphasis on entrepreneurship.	Not Regional	Cursory Review	Approved (May 31, 2010)
Bachelor of Arts, Minor/Concentration in Latin American Studies	Feb. 10, 2010	New Program	SMU is proposing a 24ch Concentration in Latin American Studies within its three-year Bachelor of Arts program. The proposed Concentration includes 6ch of Spanish language courses, 6ch of Latin American history, and 12ch selected humanities and social science electives focusing on Latin America. There is also an opportunity for study abroad through institutional partnerships with Mexican and Brazilian universities. SMU is also proposing a Minor in Latin American Studies within the four-year degree; the Minor does not require MPHEC approval.	Regional to NB and PE (Offered in NS)	In-Depth	Approved with conditions (Apr. 26, 2010)
Bachelor of Environmental Studies	Jun. 18, 2011	New Program	The proposed Bachelor of Environmental Studies is designed to prepare students for work related to environmental issues – from natural resource management and protection, to sustainable economic planning and development for the protection and preservation of the environment. Students will be required to complete 120ch of courses including foundation courses, core Environmental Studies courses, courses within a thematic area as well as selected and free electives. As part of the required ES coursework, students complete two capstone courses in the fourth year of the program that provides an applied orientation to environmental policy and practice.	Regional to PE (Offered in NB and NS)	Cursory Review	Approved (Aug 17, 2010)
Master of Science in Applied Science	Feb. 22, 2011	Modification	SMU proposes changes to the curriculum (a reduction of courses) and an addition of more disciplines.	Regional to NB and NS (Offered in PE)	To be determined	Pending
PhD in International Development Studies	Jan. 14, 2011	New Program	The proposed PhD in International Development Studies (IDS) will be a three- to seven-year, research-based program which focuses on the political economy of globalization. Students are required to take two full-year courses, prepare and defend a thesis proposal, and research and write a dissertation which is to be publically defended. The proposed program will prepare students for teaching positions in IDS faculties, or work in government or non-governmental organizations.	Regional to NB and PE (Offered in NS)	In-Depth	Pending

Program	Date of receipt	Proposal Type	Program Description	Regional Designation (if approved)	Assessment Type	Decision
St. Francis Xavier University						
Bachelor of Information Systems (including COOP option) from: (a) General; (b) Majors in Enterprise Resource Planning, E-Business or Management Information Systems; and (c) Honours in Enterprise Resource Planning, E-Business or Management Information Systems to (a) General; (b) Majors in Enterprise Systems or IT Management; and (c) Honours Enterprise Systems or IT Management	Mar. 15, 2011	Modification	The proposal is submitted to change the names of the program streams.	To be determined	To be determined	Pending
Bachelor of Information Systems in E-Business (Major/Honours including COOP)	Mar. 15, 2011	Termination	StFX proposes to terminate the program given the lack of interest in the program since its implementation.	To be determined	To be determined	Pending
Bachelor of Science Advanced Major in Biology with Information Systems Bachelor of Science Advanced Major in Earth Sciences with Information Systems	Mar. 10, 2011	Termination	StFX proposes to terminate the program given that there have been no enrolments since the program was created and the faculty member responsible for the program is no longer employed by the University.	To be determined	To be determined	Pending
Bachelor of Science in Human Nutrition with Integrated Dietetic Internship option to Bachelor of Science in Human Nutrition and a Diploma in integrated Dietetic Internship	Mar. 10, 2011	Modification	StFX proposes the removal of the dietetic option as part of the Bachelor's degree and the addition of a Diploma in Integrated Dietetic Internship, which students could complete after graduating from the Bachelor of Science in Human Nutrition program.	To be determined	To be determined	Pending
Université de Moncton						
Baccalauréat appliqué en design intérieur	Jun. 26, 2008	New Program	This four-year program seeks to combine university instruction with professional college training in interior design to meet the standards of the Conseil d'accréditation en design d'intérieur (CADI). The first and fourth years will be taught at UdeM while the second and third years will take place at CCNB in Dieppe. After completion of the third year, students will receive a college diploma in interior design, followed by a Baccalauréat appliqué en design d'intérieur after the fourth year.	Regional to NS and PE (offered in NB)	In-Depth	Approved with conditions (Nov. 29, 2010)

Program	Date of receipt	Proposal Type	Program Description	Regional Designation (if approved)	Assessment Type	Decision
Université de Moncton (Continued)						
Baccalauréat en administration des affaires; concentration gestion internationale – Régime coopératif	Jun. 10, 2010	Modification	UdeM is proposing the addition of a three-term co-op option to its existing four-year Baccalauréat en administration des affaires; concentration gestion internationale. Students will complete a non-credit work term after their second, third and fourth years, respectively. UdeM has reduced elective requirements by 6ch in the proposed program; its original BAA concentration gestion internationale requires 127 credits and the proposed program with the co-op option requires 121credits.	Regional to PE (Offered in NB and NS)	Cursory Review	Approved (Aug. 10, 2010)
Baccalauréat en Science Infirmière	Jan. 11, 2011	Modification	The number of credits in the program is being reduced from 133 to 120, distributed as follows: <ul style="list-style-type: none"> • 21 general education credits; • 69 credits in the main discipline; • 30 credits in related disciplines. 	Regional to NS and PE (Offered in NB)	To be determined	Pending
Certificat de deuxième cycle en technologie de l'information	Nov. 25, 2010	Termination	UdeM proposes to terminate the program given that financial resources are no longer in place to support the program.	Not Regional	Cursory Review	Approved (Dec. 21, 2010)
Certificat d'études préparatoires en musique	Oct. 27, 2010	Modification	The name of the program has been changed from "Année préparatoire en musique" to "Certificat d'études préparatoires en musique."	Regional to NS and PE (Offered in NB)	Cursory Review	Approved (Dec. 21, 2010)
Diplôme d'études supérieures en technologie de l'information - internat coopératif	Nov. 25, 2010	Termination	UdeM proposes to terminate the program given that financial resources are no longer in place to support the program.	Not Regional	Cursory Review	Approved (Dec. 21, 2010)
Doctorat en psychologie, Profil professionnel	Jul. 12, 2010	New Program	The proposed program is intended for students who want a career in professional psychology. It leads to a Ph.D. in psychology (D. Psy.) from an undergraduate degree in that field. The current program has a total of 120 credits divided over three years of courses, practicums, and research activities, as well as a one-year internship. Most of the program requirements are relevant to the development of knowledge and skills specific to each of the six essential competencies. Other compulsory and elective courses deal with the biological, individual, social, and cognitive-affective foundations of behaviour in accordance with the Mutual Recognition Agreement . The program normally lasts four years and must be completed within six years. Two years of residency are required.	Regional to NS and PE (Offered in NB)	To be determined	Pending

Program	Date of receipt	Proposal Type	Program Description	Regional Designation (if approved)	Assessment Type	Decision
Université de Moncton (Continued)						
Maîtrise ès arts (littérature canadienne comparée)	Jun. 3, 2010	New Program	The master's program in comparative Canadian literature is designed to shed light on points of comparison and areas of intercultural contact (historical, symbolic, stylistic, or other) between literatures written in both official languages in Canada. It is designed to compare English- and French-language literature. Full-time students must take four seminars over one academic year. Two of these seminars are offered by the English department and the other two are offered by the department of French studies.	Regional to NS and PE (Offered in NB)	Cursory Review	Approved (Oct. 18, 2010)
Mineur pluridisciplinaire en beaux-arts	Jun. 18, 2010	Termination	UdeM is proposing to terminate its existing multidisciplinary Minor in Fine Arts in September 2010 due to limited enrolments over the past several years.	Not Regional	Cursory Review	Approved (Aug. 10, 2010)
PhD en Science de la vie	Sept. 13, 2010	New Program	This three-year (maximum 7 years) program aims to train high-calibre researchers who are capable of directing work in priority fields of the life sciences, namely, the environment and health. More specifically, the Ph.D. en sciences de la vie program provides training for specialists in one of the following two fields: (1) Ecology, evolution, and environment; (2) Molecular and cellular biology and physiology The candidate must be enrolled as a full-time student for at least four semesters. The Ph.D. en sciences de la vie program consists of three essential components: advanced disciplinary training (6 credits), interdisciplinary training in life sciences (6 credits) and the development of research skills (86 credits).	Regional to NS and PE (Offered in NB)	In-Depth	Pending
University of New Brunswick						
Bachelor of Applied Health (UNBSJ)	Apr. 13, 2010	New Program	This is a full-time, post-diploma degree designated primarily to meet the needs of international students with a diploma in a health discipline applying from outside Canada and for domestic students with a health-related diploma other than those served by the BHS program. The combination of block credit from the applied-skills-based education from the approved professional diploma program (two years) and the complementary education from the University (two years – 69ch) provides the basis on which the applied health degree is offered.	N/A	In-Depth	Withdrawn (Aug. 6, 2010)
Bachelor of Arts, Double Major in Linguistics (UNBSJ)	June 10, 2010	New Program	The proposed program is one component of a Double Major, completed as part of a four-year, 120ch degree program. The Linguistics part of the Double Major requires 30ch, which can be fulfilled over two years.	Regional to PE (Offered in NB and NS)	In-Depth	Pending

Program	Date of receipt	Proposal Type	Program Description	Regional Designation (if approved)	Assessment Type	Decision
University of New Brunswick (Continued)						
Bachelor of Business Administration, Major in Marketing (UNBSJ)	Jun. 10, 2010	New Program	The proposed program is a 27ch Marketing major in UNBSJ's four-year, 120ch Bachelor of Business Administration program. Students must complete five required courses, two electives from a group of marketing courses and two electives from a list of courses in a related discipline.	Not Regional	Cursory Review	Approved (Oct. 7, 2010)
Bachelor of Information Sciences - Software Development (UNBSJ)	Apr. 13, 2010	New Program	The proposed program is building on UNBSJ's existing Bachelor of Information Sciences program where students have the opportunity to specialize in 'Decision and Business Management' or 'Decision and System's Science'. The proposed program can be completed entirely at UNBSJ or by completing NBCC's two-year Diploma in Computer Programming Technology program with a further 22 courses at UNBSJ (just over two years) and is intended to be interdisciplinary.	N/A	In-Depth	Withdrawn Nov. 16, 2010
Bachelor of Science, Major in Economics Bachelor of Science, Honours in Economics (UNBF)	Aug. 27, 2010	New Program	The proposed program is a 126ch, four-year Bachelor of Science degree with a 42ch Major or a 48ch Honours in Economics. Students will also complete the required 63ch Science core as well as electives (21ch for students in the Major, 15ch for students in the Honours program).	Not Regional	Cursory Review	Approved (Sept. 30, 2010)
Certificate in Community Leadership (UNBSJ)	Jun. 10, 2010	Modification	To allow students in Arts and Science, Applied Science and Engineering to participate in the Certificate program (originally it had been open to a smaller pool of students).	Not Regional	Received for information and record	
Certificate in Ethics (UNBF)	Aug. 27, 2010	New Program	The primary objective of the Certificate is to respond to the needs of full-time and part-time students at UNB who are interested in developing and demonstrating competency in theoretical and applied ethics. The Certificate will comprise 18ch and will be offered in the following four areas of concentration: Ethical Theory, Health Ethics, Business Ethics, and Environmental Ethics. Students are required to take three elective courses in their area of concentration, including one 3000-level course.	Not Regional	Cursory Review	Approved (Jan. 10, 2011)
Joint Master of Arts in Sport and Recreation Administration to Master of Business Administration in Sport and Recreation Management (UNBF/SJ)	Sept. 10, 2009	Modification	UNBF is proposing to offer an MBA in Sport and Recreation Management in which students complete most of the core MBA program courses and replace electives with Kinesiology courses. Students can choose to complete a course-only, thesis or internship option. The program is to be completed over two years of full-time study	Regional to PE (Offered in NB and NS)	Cursory Review	Approved (Jul. 16, 2010)

Program	Date of receipt	Proposal Type	Program Description	Regional Designation (if approved)	Assessment Type	Decision
University of New Brunswick (Continued)						
Master of Applied Computer Science (Both UNBF/SJ)	Jan. 18, 2011	New Program	UNB is proposing a course-based Master of Applied Computer Science with a co-op option. Students must complete 10-12 graduate and undergraduate courses, two of which can be replaced by an individual project. Students may complete the proposed program on a full-time or part-time basis.	N/A	In-Depth	Returned (Mar. 23, 2011)
Master of Education, Educational Administration to Master of Education, Educational Administration and Leadership (UNBF)	Aug. 27, 2010	Modification	The proposed modification is submitted as a name change only.	Not Regional	Cursory Review	Approved (Nov. 10, 2010)
Master of Education, Educational Foundations to be separated into two fields: (a) Educational Administration (b) Special Education (which is to be renamed Exceptional Learners) (UNBF)	Aug. 27, 2010	Modification	The proposed modification is submitted as a name change only.	Not Regional	Cursory Review	Approved (Nov. 10, 2010)
Master of Nursing, Nurse Educator (Both UNBF/SJ)	Jul. 21, 2008	Modification	Currently, the Master of Nursing Program at UNB is approved with a Thesis/Report Stream (MN) and a Nurse Practitioner Stream (MN, NP). The proposed modification is to add a course-based Nurse Educator Stream (MN, NE).	Regional to NS and PE (Offered in NB)	In-Depth	Approved (Jun. 28, 2010)
University of Prince Edward Island						
Bachelor of Education (Kindergarten) English Version French Version	Mar. 8, 2010	New Program	The program is designed as a part-time Bachelor of Education (Kindergarten) degree offered on a limited term basis to a specific and pre-identified set of adult learners. These learners are those educators currently employed in Early Childhood Education Centres across Prince Edward Island who will be transitioning to the public school system when the province moves to a K-12 system in September 2010. Participants will take 20 Education courses. Normally, the program will be completed in four calendar years.	Not Regional	In-Depth	Approved with conditions (Apr. 26, 2010) Approved with conditions (Feb. 7, 2010)

Program	Date of receipt	Proposal Type	Program Description	Regional Designation (if approved)	Assessment Type	Decision
University of Prince Edward Island (Continued)						
Bachelor of Education Specialization in Teaching French Immersion to Bachelor of Education, Enseignement en français Renamed: Bachelor of Education (Français langue seconde)	Mar. 1, 2010	Modification	UPEI proposes to change the name of its existing Bachelor of Education, Specialization in Teaching French Immersion to Bachelor of Education, Education en français. UPEI is further proposing to offer the courses entirely at UPEI. Currently, 10 of the 20 required courses for the program are delivered at the Université de Moncton. The program retains the same three streams: Early Years, Middle Years and Senior Years. The intent of the new program is to prepare future teachers of French Immersion, Core French and Intensive French.	Not Regional	In-Depth	Approved with conditions (Feb. 7, 2011)
Bachelor of Science (Kinesiology)	Jun. 9, 2010	New Program	The proposed program is a four-year, 120ch Bachelor of Science in Kinesiology designed to prepare students to work with individuals and communities to achieve optimal health and quality of life. Students may opt to take courses from Holland College's Sport and Leisure Management program as electives which may lead to professional certifications.	Not Regional	In-Depth	Approved with conditions (Sept. 20, 2010)
Bachelor of Wildlife Management (Articulated with Holland College) Renamed: Bachelor of Wildlife Conservation	Jan. 7, 2009	New Program	The proposed program combines practical and theoretical strengths of existing courses provided by Holland College and the University of Prince Edward Island for students interested in obtaining more rigorous training in wildlife management. The occupational content is introduced at Holland College during the first two years. Once accepted by UPEI, students will undertake a rigorous and relatively structured program of 20 courses, 15 of which will be required, over a two-year period (3rd and 4th yrs of the program).	Not Regional	In-Depth	Approved With conditions (Apr. 26, 2010)
Certificate in Educational Leadership in Nunavut	Feb. 22, 2010	New Program	This is a five-course, post-degree Certificate program designed for Inuit and non-Inuit B.Ed. graduates wishing to hold leadership positions in the Nunavut public school system. The purpose of the program is to provide educational leadership and management strategies that respect cultural traditions and engage the community in the education system.	Not Regional	Cursory Review	Approved (May 18, 2010)
Certificate in Human Resource Management	Jan. 5, 2011	Termination	This is an articulated program offered at UPEI and Holland College. Students take three required business courses (9ch) at UPEI and then take the remaining seven courses at Holland College. If students do not have previous work experience in the field, a four-week field placement is required. Students may complete the program on a full-time or part-time basis.	Not Regional	Cursory Review	Approved (Feb. 1, 2011)
Master of Nursing (Nurse Practitioner Stream) Master of Nursing (Thesis Stream)	Mar. 1, 2010	New Program	The proposed two year Master of Nursing program has two streams: The Thesis Stream and the Nurse Practitioner Stream. The Nurse Practitioner Stream may only be taken on a full-time basis. This Stream will consist of 55ch and includes 700 hours of supervised clinical practice plus a synthesis paper. There are 4 core courses and 8 required courses, including two offered at UNB.	Not Regional	In-Depth	Approved with conditions (Jun. 26, 2010)

Program	Date of receipt	Proposal Type	Program Description	Regional Designation (if approved)	Assessment Type	Decision
University of Prince Edward Island(Continued)						
PhD in Environmental Science	Jun. 22, 2011	New Program	The proposed PhD in Environmental Sciences is a four- to seven-year, interdisciplinary, research-oriented program with supplementary non-traditional training and certification in Environmental Communication Strategies. A research dissertation and a core set of environment-oriented courses will constitute the foundation of each student's program, both of which will be complemented with an array of elective courses. The program also includes a 75-hour internship	Not Regional	In-Depth	Pending
PhD in Molecular and Macromolecular Sciences with an Introduction to the Business of Science	Jun. 22, 2010	New Program	The proposed program is a full-time, research intensive Doctor of Philosophy degree administered by the Faculty of Science under the umbrella of the Molecular and Macromolecular Sciences research constellation, along with an additional business specialization. Students must complete 9ch of MMS courses and 9ch of Business courses, a 6ch capstone course, a candidacy exam, and a PhD thesis.	Not Regional	In-Depth	Pending
Université Sainte-Anne						
Baccalauréat en gestion-Option Services communautaires (Services aux adultes et services aux enfants et aux adolescents)	May 25, 2009	New Program	Following completion of NBCC's two-year "Techniques d'intervention en services communautaires – Services aux enfants et adolescents", or the "Techniques d'intervention en services communautaires – Services aux adultes" diploma, which includes 840 work placement hours, students complete two years of study at USA to obtain the proposed degree. The USA courses primarily consist of management courses and also require the completion of a classification test in both French and English.	N/A	In-Depth	Withdrawn (Jan. 20, 2011)
Maîtrise en éducation	Dec. 11, 2011	New Program	USA is proposing to add a second stream to its existing MEd program so that students could choose to specialize in teaching French as either a first or second language. The MEd would have a common core of eight courses with two additional courses to be completed and which differ depending on the specialization chosen. The program will only be offered on a part-time basis and consists of 30 credits to be taken over three and a half years.	Regional to NB and PEI (Offered in NS)	In-Depth	Pending
Joint Programs						
Master of Journalism <i>(offered by Dalhousie University and the University of Kings College)</i>	Nov. 29, 2010	New Program	The proposed program is a 10-month, 30ch full-time Master of Journalism program with two streams: Investigative and New Ventures. Both streams conclude with a project and both are built around a core of classes in the craft and economics of multimedia, multiplatform journalism. All classes in the Investigative stream will be offered at King's; six of the eight classes for the New Ventures stream will be offered at Kings. Two classes in the New Ventures Stream are delivered through Dalhousie's Faculty of Management.	Regional to NB and PE (offered in NS)	Cursory Review	Approved (Feb. 28, 2011)
